Silomé is a musician, singer, songwriter. And the artist name of Hugo Kant's and Bellring's manager.

This first EP presents a selection of five songs composed at different ages and a cover of a beautiful song by Bonga she grew up listening to and she has been singing for so long that it has become a bit of her anthem. Like a compilation from the past to begin with.

Six songs in English, Spanish, French and Kimbundu, with varied arrangements. Softness, saturation, acoustic instruments, electric instruments, each song has its own universe. The spectrum of colors is wide, the emotions that pass through us are varied, different languages evoke different realities, our identities are in constant motion. Here is a first EP reflecting this diversity.

Digital release on Avril 5 2024
